Integrationspakten

## Integrationspakten is an initiative by the City of Stockholm launched in 2019.

Integrationspakten is a member network of organizations from the business, non-profit and public sector in the region, who want to play their part for Stockholm and contribute to a more inclusive labour market.

It is the members that create the content and direction of Integrationspakten. The City of Stockholm is both a member as well as a facilitator of the network.

The network offers a platform for inspiration and knowledge, exchange of ideas and experiences, the visualization of member's activities and engagement, possibilities of new partnerships and business opportunities as well as a closer dialogue with the City.

The purpose of the network is to optimize the results of the member's ambitions and initiatives.

### Integrationspakten has three goals:

- Support employers in the challenge of finding needed competence and workforce
- Enable a fast track to the Swedish language, education and the labour market
- Strengthen the integration in Stockholm by enabling more people to actively participate in the labour market and to provide for themselves through an employment
